*What does the Team Rocket Trio do when they decide to retire from villainy?
For now just an outline and some Fanart, but might add more eventually...*

Outline

Eventually, the Team Rocket Trio decide that they want to settle down and figure themselves out. They've been in the villain business since their teens, it's past time for them to relax a little!

They return to Alola, reuniting with Bewear & Stufful, and open up a bakery with their Pokémon. They continue their radio show on the side, Jessie makes semi-regular trips to enter showcases, and James works on his inventions. Meowth, for one reason or another, ends up joining James's team.

They live a quiet life free from any major excitement, though of course there's there's still many mishaps and misadventures for this chaotic trio.

Jessie & James eventually have children. Twins, named Primrose and Pablo. Prim is stoic, proper, neat, and overly fearful. Pablo is energetic, inventive, messy, and easily distracted. They know nothing of their parents' old lives, until the day a master list of Rocket operatives hits the news.

They don't get much opportunity to question their parents, as soon after Giovanni sends out teams to capture all his wayward agents, leaving the inexperienced twins and their young Pokémon to rescue them.
